Hiding Place

Could it have been something I said
That made you feel so strange
It's who you said that life was strange
Anyway
Like a fool like a day
A man in the way of a speeding train
It's who you said that life was strange
Anyway

(Chorus)
You can take me up and down
Show me your favorite hiding place
Bury me six feet under the ground
I cannot breathe
Pull me up show me to all your friends
The dirt still in my hair
Put me back under before I get a breath of air
(Chorus)
Then there's the queen with broken dreams
Thought they were meant to be
Just couldn't pull it all together
Floating around just won't come down
But then why should she
Things look better
From up here
J. Roberts

Ashlee

Ashlee's in pain, I hope she will recover
thinks she's insane, but I know better
and I will try, to show her that I'm all right

Chorus

Ashlee's in pain, she turns away
when I give her my love
Ashlee's in pain, she turns away
But I will not give up

Ashlee's so strange, hides beneath the covers
tries to explain and tells me of the others
so I will try to show her that I'm all right

Chorus

Ashlee when you where young did you play make believe
Ashlee when this life's done and you move on
will you remember me.

Chorus out

Blossoms

I could live with chimpanzees
Romp around the Middle East
Walk my way through Africa
Crawl beneath the pyramids
What does it mean
What does it mean to me
Living life in Idaho
Living there and growing old
Died and planted in the ground
Flowers blooming everywhere
What does it mean
What does it mean to me
(Chorus)

You are flowers blooming everywhere
Hate and love and hope despair
Blossoms that will reach the sky
Gems and riches everything
I am ruler I am king
All I need to feed my soul
But I have got these aches and pains
Visit to a medicine man
Says he's doing all he can
"But I cannot live with this pain"
"There's nothing I can do for you"
What does it mean
What does it mean to me

(Chorus)
People come and people go
In this life
They love you so
J. Roberts & E. Broms

For Granted

We take these things for granted
They come undone
We could walk forever
We could talk forever
And dare reveal
The life that's real inside
We just smile and turn away
Chorus
Then gravitate to the rooms
Behind the door is a symphony
A remedy
I know
I know she said
Let's radiate these colors
In our heads

The love that goes neglected

Falls on deafened ears
A million dispositions
Hide many fears
We could talk forever
And dare reveal
The life that's real inside
She just smiles
She just turns away
Chorus
I know
I know she said
Like Robinson Crusoe
In our heads, 'cause I know
She said

God's Cruel Joke On Me

I can't imagine being happy for too long
but from my misery I write all my songs
some say that's sick some say that's funny
it's just God's cruel joke on me

I'm never lucky when it comes to love
then comes a little girl who's much too young
some say that's sick some say that's funny
it's just God's cruel joke on me

I have a friend with lots of cash
who gets the girls he treats like trash
he's got it made
and I am sure if there's a God
he must be mad he must be on the take

I'm just a singer and I play guitar
crucified by the critics and you know who you are
well I think it's sick that you think you're funny
you're just God's cruel joke on me

I have a friend with everything
who gets it all without a string
he's got it made
and I am sure if there's a God he
must be mad he must look the other way

I know it's wrong to say the word I think
I know it's wrong to play this evil game

D. Watto

I Wanna Be With You

Is it so hard to understand
you're my woman and I'm your man
yes I'm making our future plans, but till then
Chorus
I just wanna be with you
night and day in every way
these are words that I must say
I just wanna be with you
Is it so hard for you to see
that you and I, we were meant to be
yes I'm chasing all our dreams
but for now it seems

Chorus
Like I told you on the night before
It's gonna be ok
like I told you many times before
that if you loved me so you wouldn't be that way

I just wanna be with you
night and day in every way
these are the words that I must say
and if you ever took them away
things could never ever be the same
I just wanna be with you

A Thousand Tears

"Life is work and without it
There's only
Fear and insecurity".
John said

Suddenly 26 is here
I'm just learning how to steer
I've been back for more than a year
Swam through a thousand tears
Life is love and without it
There's only loneliness
I'm sweeping up the floors
With yesterday's blinds
Ready for the chill of winter
But feel the sun
Dry away a thousand tears
Through a thousand tears
And if the mountains should fall
Over valleys so wide
I would stay with you

E. Broms

Strange It Seems

Strange it seems
To need a little love
I am no exception
To need a little love
So forgive me if I don't subscribe
To the meat and potatoes views
They'll just rule the world
Sit here as the world goes by
Wonder how long it will take me
Before I fly

(Chorus)
All I want is someone I can feel with
Interesting

To need a little love
I am no exception
To need a little love
Forgive me if I see right through
The things that you say will do
You can't fool the world
Sit here as the world goes by
Wonder how long it will take me
Before I can fly

(Chorus)
Is there someone out there
Is this someone I should know?
I get ever so frightened

(Chorus)
J. Roberts

Honey Bee

Honey bee I love you so
listen close to me, there's something
I want you to know
You believe in the strangest things
like killer bees are after you
Stick with me and you'll be safe

Chorus
don't you ever fear
I'll be by your side
when trouble's ever near
I will save your life

Honey bee don't let go to broken dreams
they'll come true someday I know
you believe in such foolish things
like UFO's are after you
take my hand and we'll escape

Chorus
don't you know I love you (I really do)
don't you know I care (I really do)
I will die for you, anytime or anywhere

E. Broms

Honey bee your heart is gold and everyday

you just get more beautiful
I believe that you and I
will never die, we'll just spread our wings and fly
Chorus
D. Watts

Wondrous Life

Yellow greens and blues and reds
And colours vivid in my head
Wanting all
And hoping for
The things I see
And will I have
(Chorus)
This wondrous life that is given me
Free from the fear, animosity
This wondrous life
Framing bits of love, elation
Here and there and pressing on
Sun it seems
And higher things
They speak to me so gently

(Chorus)
Wanting, hoping
Giving yourself
Will we see it through
This wondrous life
J. Roberts

Ocean Pearl

Good night ocean bright
stars collide
color the sky
leaping over barricades
to wallow in sunshine tides

Chorus
All through the days
all through the nights
will you ever make up your mind
to join the laughing kind
Good night ocean bright
fare you well
The sun's refrain
leaping over junipers
waking sleepy eyes

Chorus
Will you ever make up your mind
to feel the love sublime
